

## ***Appendix 10***

### ***Growth Strategy Principles***

<b>Outcome</b>	<b>Outcome Definition</b>
<u>Water quality</u>	<u>water quality</u> in streams and coastal marine area is maintained where it is good, and improved where it is now degraded.
Access and transport efficiency	more transport choices and high levels of <u>access</u> for all sections of the community, a closer relationship between home and work, activities, shopping, open space etc., managing traffic congestion, and a better passenger transport system.
Coastal environment	natural character of <u>coastal environment</u> including landscapes, ecosystems, native bush and water quality preserved and enhanced and access to clean and beautiful beaches maintained.
<u>Air quality</u>	<u>air quality</u> is maintained where it is good, and improved in areas where it is now degraded.
Sustainable use of resources	more <u>efficiency</u> in use of natural and physical resources, including urban land, rural land, infrastructure and energy resources.
Employment Choice	more <u>employment</u> choices everywhere, better match of employment to population in different parts of Region.
Business opportunity	improved opportunities for <u>businesses</u> (business growth, development opportunities, affordable and suitable land and infrastructure).
Urban amenity	higher quality <u>urban amenity</u> particularly business, residential, shopping and public space areas (more trees, better streetscape, better urban design etc).
Safe, healthy communities	safer, healthier <u>communities</u> , with high quality readily accessible community facilities and services – publicly and privately provided (e.g. libraries, sporting facilities, schools, stadia, theatres, cafes, gyms etc).
Housing choice/affordability	improved <u>housing</u> choice and affordability throughout the Region.
Cultural heritage	protection and enhancement of <u>cultural heritage</u> .
Habitat	expansion and protection of high quality indigenous <u>habitat</u> .
Open space	a greater range and diversity of protected <u>open space</u> .
Rural amenity	better non-urban and rural amenity including landscape protection, and more trees and vegetation.
Physical and social infrastructure	physical and social infrastructure provided, maintained, enhanced and optimised – existing infrastructure maintained and utilised where it has sufficient capacity for growth, and upgraded where it does not.
Cultural identity	cultural identity, including cultural diversity maintained.
